

VeLo¹⁵ CO₂ Focusing Lens

Low Absorption Coatings < 0.15% (typical)

VeLo¹⁵ CO₂ Focusing Lens
Low Absorption Coatings < 0.15%

Benefits of VeLo¹⁵ (Patent pending)

- * Longer Lifetime
- * Reduced Thermal Lensing Effect
- * Enhance Cutting Performance
- * Transmit Red (650-670nm) laser line for easy alignment
- * For High-Power CO₂ Lasers above 2.5 KW

Specifications

- * **Lens Material Type: ZnSe**
- * **Total absorption: < 0.15% (typical)**
- * **Surface Quality: 40 / 20 both sides**
- * **Anti-reflection coating R < 0.25% @ 10.6µm per surface**

VeLo¹⁵ Coating Service on Customer Supplied Lenses available

- * Quick Delivery Turnaround
- * Absorption Tests before & after VeLo¹⁵ coating on customer supplied lenses
